Thank you for mentioning those of us who served and are proud of what we did to help preserve our freedoms in this wonderful country. I found a less-than-thankful reception upon returning from overseas duty in '67. It's good to know that our efforts were not in vain when those with whom we grew up still think of us once in a while.

With no regrets.

I entered the Navy in 1976, which was also just 23 days after graduating from CD. I spent time mostly on the deck of an aircraft carrier as an aircraft electrician for high performance jet aircraft such as the A6 intruder, EA6B Electronic countermeasure aircraft and then the C9B (Military version of the DC9). While in the service I obtained my undergrad degree in Aeronautics and then went on to obtain a masters in "Aviation" business admin and overlapping academic affairs, continued to obtain my MS in Applied Health and Industrial Hygiene. I am now working (very slowly but persistently) in obtaining my PhD in Epidemiology. I currently work for the office of the Asst secretary of Defense for Public Affairs with responsibility for Safety, Health, Environmental, facilities and some security functions at 64 worldwide locations. Currently Stationed at the Headquarters in Fort Meade MD.
